THE GRAND JURY require on the part of the CONSERVATOR, that he ſhall be vigilantly attentive in viewing the ſeveral Roads, Streets, &c. &c. for the repairs of which the within Preſentments have been granted, as it will be expected from him, on oath, faithfully to report to the enſuing Grand Jury at next Affizes, whether ſuch Preſentments as ſhall then be accounted for by the reſpective Overſeers are well done. It is alſo further obſerved, that it will be a great encouragement to Grand Juries to grant Preſentments to any gentleman who applied at this Affizes, or who may in future apply, who ſhall execute the work as ſoon after their being granted as the weather may permit, as it is too generally the caſe that the work is left undone by the Overſeers until towards the approach of the Affizes, and conſequently then executed in ſuch a hurry, as very ſoon again to require repair at the public expence.

N.B.—A repreſentation, made by any reſpectable Citizen, of the neglect of any Overſeer or Overſeers, and of courſe the Preſentment committed to his or their charge being imperfectly finiſhed, will (on ſuch complaint being fully ſubſtantiated) be particularly attended to by future Grand Juries, and payment ſtopped till properly accounted for.

THE GRAND JURY require on the part of the CONSERVATOR, that he ſhall be vigilantly attentive in viewing the ſeveral Roads, Streets, &c. &c. for the repairs of which the within Preſentments have been granted, as it will be expected from him, on oath, faithfully to report to the enſuing Grand Jury at next Aſſizes, whether ſuch Preſentments as ſhall then be accounted for by the reſpective Overſeers are well done. It is alſo further obſerved, that it will be a great encouragement to Grand Juries to grant Preſentments to any gentleman who applied at this Aſſizes, or who may in future apply, who ſhall execute the work as ſoon after their being granted as the weather may permit, as it is too generally the caſe that the work is left undone by the Overſeers until towards the approach of the Aſſizes, and conſequently then executed in ſuch a hurry, as very ſoon again to require repair at the public expence.

N.B.—A repreſentation, made by any reſpectable Citizen, of the neglect of any Overſeer of Overſeers, and of courſe the Preſentment committed to his or their charge being imperfectly finiſhed, will (on ſuch complaint being fully ſubſtantiated) be particularly attended to by future Grand Juries, and payment ſtopped till properly accounted for.

THE Secretary to the Grand Jury is directed to inform all ſuch perſons as have heretofore obtained Preſentments for repairing roads, or for making new ones, and have not proceeded to execute the ſame, that unleſs ſuch works are forthwith proceeded upon, application will be made to the Court of King's Bench, to fine the Overſeers for neglect: and it is expected that whenever a preſentment for money ſhall hereafter be obtained, the perſons obtaining the ſame ſhall immediately proceed to carry the work into execution, for which ſuch preſentments ſhall have been obtained. And that in future the accounting affidavit of the viewing Overſeers, as well as of the acting Overſeer, ſhall be ſworn before the ſame ſhall be liſted by the Secretary, otherwiſe the quere will not be diſcharged.

The Grand Jury deem it neceſſary to apprize every perſon who intends to apply for a preſentment to build any bridge, wall, gullet, pipe or ſewer, that in the eſtimate required to be annexed to the affidavit, it is requiſite that they ſtate the exact dimenſions of the ſeveral walls to be built, by inſerting the length, the thickneſs and the height, and if the walls are to batter, the thickneſs at the baſe and at the top.

The Sub-Conſtables of each barony are hereby informed, that the Grand Jury require them to put in force ſo far of the Acts of Parliament as relate to their duty, on pain of diſmiſſal and withholding their ſalary.

The ſeveral Collectors are hereby directed to take notice, that the Grand Jury require them, on receipt of their warrants, forthwith to proceed on their collections, and that no Collector will be continued that ſhall not make good his collection within the time preſcribed by law.

The Grand Jury think it neceſſary to obſerve that in their opinion the money laid out by annual Overſeers is in many inſtances conſiderably miſapplied; particularly from its being in general all laid out in the courſe of a few days, and generally within a ſhort time previous to the term, almoſt the entire expended in gravel, and very little in picking and levelling the road. They recommend it to future Grand Juries to pay particular attention to the accounting affidavits of annual Overſeers, and to the times and mode of expenditure.

Signed by Order,

Charles Wiſdom, Secretary.

THE Secretary to the Grand Jury is directed to inform all ſuch perſons as have heretofore obtained preſentments for repairing roads, or for making new ones, and have not proceeded to execute the ſame, that unleſs ſuch works are FORTHWITH proceeded upon, application will be made to the Court of King's Bench, to fine the Overſeers for neglect: And it is expected that whenever a preſentment for money ſhall hereafter be obtained, the perſons obtaining the ſame ſhall IMMEDIATELY proceed to carry the work into execution for which ſuch preſentments ſhall have been obtained. And that in future the accounting affidavit of the viewing Overſeers, as well as of the acting Overſeer, ſhall be ſworn before the ſame ſhall be liſted by the Secretary, otherwiſe the Quere will not be diſcharged.

The Grand Jury deem it neceſſary to aporize every perſon who intends to apply for a preſentment to build any bridge, wall, gullet, pipe or ſewer, that in the eſtimate required to be annexed to the affidavit, it is requiſite that they ſtate the exact dimenſions of the ſeveral walls to be built, by inerting the length, the thickneſs and the height: and if the walls are to batter, the thickneſs at the baſe and at the top.

The ſub-conſtables of each barony are hereby informed, that the Grand Jury require them to put in force ſo far of the Acts of Parliament as relate to their duty, on pain of diſmiſſal and withholding their ſalary.

The ſeveral collectors are hereby directed to take notice, that the Grand Jury require them, on receipt of their warrants, forthwith to proceed on their collections, and that no collector will be continued that ſhall not make good his collection within the time preſcribed by law.

The Grand Jury think it neceſſary to obſerve, that in their opinion, the money laid out by annual Overſeers is in many inſtances conſiderably miſapplied; particularly from its being in general all laid out in the courſe of a few days, and generally within a ſhort time previous to the term almoſt the entire expended in gravel, and very little in picking and levelling the road. They recommend it to future Grand Juries to pay particular attention to the accounting affidavits of annual Overſeers, and to the times and mode of expenditure.

Signed by Order,

Charles Wiſdom, Secretary.

To the GRAND JURY aſſembled at LENT ASSIZES 1807:

The REPORT of the Committee appointed for the purpoſe of inſpecting and auditing the Treaſurer's Accounts.

Gentlemen,

IN executing the duty which was committed to us by the late Grand Jury, and in which the public money of this County is ſo materially and deeply concerned, we thought it indiſpenſably neceſſary to call to our aſſiſtance the aid of Mr. Rokey, the Deputy Clerk of the Crown, and of Mr. Chambers the Solicitor to the Grand Jury, to whoſe labour, perſeverance, and ability we feel ourſelves greatly indebted for the clear and perſpicuous arrangement which they enabled us to adopt, not only in examining into the accuracy of the Treaſurer's accounts, but into the whole detail of checks that the law intended to have eſtabliſhed, in order to prevent the poſſibility of the public money being miſapplied, either intentionally or from neglect.

In order that our inveſtigation ſhould be as uſeful to the public as our endeavours could make it, we commenced our examination of the Treaſurer's accounts from the time of his appointment to that office, and continued it until the preſent time: and before we lay before you the reſult of our enquiry, we think it right in the firſt place moſt earneſtly to impreſs on your minds the defects that have ariſen in the ſyſtem of keeping the accounts of this County by a departure from the regulations, and indeed, from the poſitive directions of the law reſpecting them; becauſe we feel perfect confidence, that by reſtoring to the County the wiſe regulations of the law, not only the checks upon the receipt and payment of the public money will be rendered fully effectual, but no poſſibility can ariſe of any money being levied off the County, that has not been duly and legally preſented to be raiſed.

It is proper, however, to anticipate, that in the departure that we have diſcovered from the regulations of the law, and which we ſhall preſently ſtate to you, no blame is imputable to the preſent Treaſurer, or the other public Officers of the County.—The ſyſtem we allude to was eſtabliſhed in this County for many years before any of them came into office, but which ought, we think, to be inſtantly corrected.

The ſyſtem we object to is confounding the duties of Clerk of the Crown, Treaſurer, and Secretary to the Grand Jury, each of which the law intended ſhould be a check upon the other:—in order,

Firſt, To ſecure the County that the true amount of the money actually preſented, and no more, ſhould be levied.

Secondly, That due credits ſhould be given to the Public for money raiſed, and (not being expended upon the intended work) afterwards re-preſented to the credit of the Public.

And thirdly, That the ſeveral warrants iſſued by the Treaſurer for the levy of public money, as well upon the County at large, as upon the ſeveral Baronies, ſhould be duly and regularly returned to the Grand Jury at each Aſſizes; which, if inforced, would almoſt of themſelves conſtitute an effectual check upon any Treaſurer, or perſon acting under him, who ſhould attempt to raiſe more money under colour of his warrants than the Grand Jury had previouſly aſcertained and directed to be raiſed.

By the uſage of this County, however, it has been the practice for the Secretary to the Grand Jury,

Firſt, To take all the Preſentments from the Clerk of the Crown when fiatted by the Court, and to iſſue them to the Treaſurer, in order that he ſhould levy the amount.

By this uſage you will obſerve the Secretary to the Grand Jury not only became the keeper of the Records of the County, ſo far as related to the public money, but the reſponſible Officer, the Clerk of the Crown, by whom alone the law directed thoſe Records to be kept, became wholly irreſponſible; and it has alſo been the cuſtom to preſent to the Secretary of the Grand Jury the rent of an office for the purpoſe of keeping thoſe Records, inſtead of preſenting it to the Clerk of the Crown, who is the proper Officer.

We

Printed texts were supplied by the Cambridge University Library and digitised by the University of Southampton Library Digitisation Unit

We are fully aware that the late Grand Jury have diſmiſſed the late Secretary, and that the Preſentments are now in poſſeſſion of the Clerk of the Crown; but we think it proper to ſtate the facts as heretofore exiſting, in order as well to prevent any relapſe in future into the former ſyſtem, as to account for the irregularities in the Treaſurer's accounts, which we ſhall have occaſion preſently to lay before you.

The next irregularity that we think neceſſary to ſtate to you, is the mode heretofore adopted by the Treaſurer in iſſuing his warrants to the Collectors to raiſe the public money.

Thoſe warrants neceſſarily ought to ſtate the ſum preſented upon each Barony, for example, and the proportion of the aggregate ſum preſented upon the County that is chargeable upon each Barony, and the rateable proportion of the whole acreable charge upon the Barony.

In theſe reſpects, moſt of the warrants that we have been able to diſcover are wholly imperfect and defective.—But it is further neceſſary to direct your attention to what appeared to us to be a matter of the utmoſt conſequence: namely, that the warrants iſſued by the Treaſurer, and under which the public money has been raiſed (defective even as they have been in point of form), have never been returned to, or laid before the Grand Jury. And this omiſſion has been attended alſo by acts in themſelves ſo highly culpable, that nothing but the uſage that has prevailed in this County could reſcue the Treaſurer from the moſt ſevere cenſure. For, by not producing to the Grand Jury the warrants when the amount thereof has been levied, the Grand Jury have been not only prevented from ſeeing that the ſum levied was the ſame in amount as the ſum preſented; but the Treaſurer, upon iſſuing each warrant, aſſumed upon himſelf a power of adding to each warrant a diſtinct Preſentment, and putting into levy the amount of the Collector's fees, although ſuch fees were never preſented to be raiſed by the Grand Jury. By this mode, therefore, inſo much as the amount of the Collector's fees extended—inſo much, a levy of money has been raiſed without the authority of law. But we muſt again repeat, that this practice is not imputable to the preſent Treaſurer. It was the mode and ſyſtem of executing the office long before and at the time of his appointment. We ſubmit however to you, that it ought to be inſtantly corrected; and that hereafter no money ſhall be raiſed as fees for Collectors, till the warrants under which the ſame has been levied, together with the Treaſurer's receipts for the amount thereof, ſhall be firſt laid before the Grand Jury, as the ground or foundation whereon they can only be enabled to preſent the fees allowed by law to the Collectors; and afterwards, that ſuch warrants ſhould remain in the cuſtody of the Clerk of the Crown, along with the other records of the County.

In regard to the Treaſurer's accounts; We feel ourſelves bound ſpecifically to ſtate, that he has in every inſtance, and with every readineſs and diſpatch, afforded to us every information that the ſyſtem heretofore obſerved upon enabled him to give us. But we lament that that ſyſtem wholly deprived us of the means of examining and comparing his accounts with the warrants iſſued by him from time to time to the Collectors. For, as we have before obſerved, theſe warrants were never returned to the Grand Jury, or to the Clerk of the Crown, but remained with the Collectors themſelves. But, in order to get theſe warrants, we endeavoured, by individual applications to the Collectors, to be furniſhed therewith; and are ſorry to be obliged to ſtate, that we have only been able to obtain them in a very few inſtances indeed.

We think it our duty, however, to repeat, that Mr. Coddington, by the ready production of his private books and accounts, moſt conſiderably aſſiſted us in diſcovering many errors in his accounts, and many ſums that were omitted to be credited for to the County.

By this inveſtigation and the examination of the ſeveral quere books from 1797, when the Treaſurer was appointed, we find there were queries not regularly brought forward to the credit of the County, amounting to the ſum of £.70. 12s 3d. which queries nevertheleſs appear to us to have been ſubſequently brought forward and duly diſcharged. ſo that, in this reſpect, the public have ſuffered no material pecuniary loſs.

We find, however, balances of queries omitted altogether to be brought forward, amounting to the ſum of £.26. 0s. 4d. the particulars whereof, diſtinguiſhing the amount and date of each, we have ſtated in the Schedule herewith laid before you, marked No. 1.

Under the head of money raiſed and afterwards re-preſented by the Grand Jury to the credit of the Public, we find there are errors in the Treaſurer's accounts againſt the Public, to the amount of £.559. 13s. 1d. the particulars and dates whereof we have ſtated in the Schedule, No. 2, herewith laid before you.

We feel ourſelves bound, in juſtice to the Treaſurer, diſtinctly and ſpecifically to ſtate, that in aſcertaining the amount of the money ſo re-preſented by the Grand Jury, and not brought forward to the credit of the Public, we were moſt eſſentially aſſiſted by the Treaſurer himſelf, who laid all his private accounts and papers before us, and who on the amount being aſcertained moſt readily debited himſelf therewith; thereby enabling your Committee in ſome degree to apply a remedy to the evil reſulting from the negligence of his clerk, whom it appears the Treaſurer in a great meaſure was induced to employ from the confidence repoſed in him by former Grand Juries.

We beg leave here to ſuggeſt, that, in printing the Preſentments, the Treaſurer ſhould be directed to give credit at each Aſſizes upon the printed Abſtracts to the reſpective Baronies for all re-preſented ſums, diſtinguiſhing each ſum ſeparately; and then the money to be really collected would be apparent upon the face of ſuch Abſtracts.

Upon the whole, we are of opinion, that, by correcting the errors we have before alluded to, namely:

Firſt, In future, by ordering all Preſentments into the cuſtody of the Clerk of the Crown;

Secondly, By preſenting the fees upon the warrants of the Collectors, and filing ſuch warrants with the Clerk of the Crown.

Thirdly, By having the ſums re-preſented at each Aſſizes diſtinctly ſpecified in the printed Abſtracts; and,

Fourthly, By ſubjoining to the printed Abſtracts of the Preſentments upon the County at large and the ſeveral Baronies, a table, ſpecifying the acreable aſſeſſment to which the County and Baronies ſhall be reſpectively liable;—an effectual mode of checking the Treaſurer's accounts will be eſtabliſhed, and the ſecurity of the public money will be as well protected, as the nature of the office can permit.

After having thus detailed our inveſtigation, and ſubmitted the foregoing obſervations to you, we beg leave to ſtate our entire conviction of the ſtrict integrity of the Treaſurer, and to repeat our thorough belief that the errors that have appeared to us in his accounts have ariſen, partly from a bad ſyſtem

ſyſtem that was long eſtabliſhed in this County before he was appointed to his office of Treaſurer, and partly from the miſconduct of a clerk, not of his own ſelection, but a man who was almoſt transferred to him by the County along with his office.

And we alſo add our perfect belief, that, in conſequence of the preſent inveſtigation, and of the proper arrangement of the public offices of the County, in regard to the public money thereof;—uniform accuracy and attention will hereafter be preſerved.

Adopted.—Ordered to be printed, and the regulations recommended carried into effect.

MARCUS SOMERVILLE,
and Fellows.

The Grand Jury of the County of Meath, fully convinced of the benefit likely to reſult to the County from any obſervance of the following rules, (wherever circumſtances may permit,) do earneſtly recommend them to the attention and obſervation of the landholders thereof.

Ordered,

That all affidavits, as well for preſenting as accounting, be, ſo far as they can be procured, printed.

That to each preſenting affidavit be annexed a certificate, ſigned by the Conſervator or principal Overſeer, ſtating that the work is neceſſary; and alſo a certificate ſigned by the acting Overſeer, ſtating the rates of wages at which he has made his eſtimate. That each car ſhall draw at leaſt ſix hundred weight of gravel, and alſo that he has eſtimated the damages likely to be occaſioned by taking gravel, and the diſtance at which it is ſituated from the centre of the perches to be repaired.

That on all roads to be repaired, the ſtones be broken ſmall before the gravel is laid on; and that to each accounting affidavit be annexed a certificate, ſigned by the Conſervator or principal Overſeer, ſtating that the work is well executed.

That it is adviſable to poſtpone, until the map of the County now executing by Mr. Wm. Larkin be completed, the opening of any new line of road in this County, except in continuation of any road already in part opened in this or any adjoining County, or where circumſtances of the cleareſt public utility ſhall appear to render a ſpeedier formation of any ſuch road manifeſtly deſirable.

That Edward E. Chambers be directed to attend as our Solicitor, on behalf of the County, upon the trial of all traverſes for damages; that he ſhall employ Counſel in ſuch caſes, when he ſhall think the aſſiſtance of Counſel neceſſary, and uſe every profeſſional exertion to prevent exceſſive damages from being found and charged on this County, and to apprize the Grand Jury of each of ſuch caſes.

That in all Baronies where Conſervators have been appointed, a month's notice previous to each Aſſizes ſhall be given to ſaid Conſervators, by all perſons applying for Preſentments to repair roads, of the exact points between which the intended repairs are ſtated to be wanting, to give ſufficient time for ſaid Conſervators to examine and meaſure the ſame, ſo as to enable them to give uſeful information to the Grand Jury.

That John Gerrard, eſq. and James Reilly, be added to the Overſeers of Fianstown bridge, granted at Summer Aſſizes 1806, and that the bridge ſhall be 32 feet wide, in place of 22, for the ſum granted, amount £. 255. 5ſ.

Reſolved—That in future all gullets and ſingle arches ſhall be carried entirely acroſs the road into the adjoining fields, ſo that the banks of the ditches may be continued.

N. B. The CESS is to be collected agreeably to the Calculation, per 100 Acres.

☞ The Marks +, and —, in the Calculation per Acre, *denote*, the first, that the Sum to which it is affixed is *more*, the latter, that it is *less* than the exact Sum; but the error in no instance is equal to *half a Farthing*.

8. James Nangle, esq.
9. George Lucas Nugent, esq.
10. Hon. Hans Blackwood,
11. Robert S. Tighe, esq.
12. Skeffington Thompson, esq.
13. Elias Corbally, esq.
14. James O'Reilly, esq.
15. Robert Bomford, esq.
16. Thomas Everard, esq.
17. Nathaniel Preston, esq.
18. John Pollock, esq.
19. Henry Woodward, esq.
20. Charles Tisdal, esq.
21. William Battersby, esq.
22. John Ruxton, esq.
23. Thomas Taylor Rowley, esq.

THE Grand Jury of the County of Meath, fully convinced of the benefit likely to result to the county from an observance of the following rules and notices, (when circumstances may permit) do earnestly recommend them to the attention and observation of the Landholders thereof:

That all Affidavits, as well for presenting as accounting, be, so far as they can be procured, printed.

That to each Presenting Affidavit be annexed a Certificate, signed by the Conservator or principal Overseer, stating that the work is necessary; and also a Certificate signed by the acting Overseer, stating the rate of wages at which he has made his estimate —That each Car shall draw (at least) six hundred weight of gravel; and also that he has estimated the damages likely to be occasioned by taking gravel, and the distance at which it is situated from the centre of the perches to be repaired.

That on all roads to be repaired, the stones to be broken small before the gravel is laid on; and that to each Accounting Affidavit be annexed a Certificate, signed by the Conservator or principal Overseer, stating that the work is well executed

That it is advisable to postpone, until the Map of the County now executing by Mr. William Larkin be completed, the opening of any new line of road in this County, except in continuation of any road already in part opened in this or any adjoining County, or where circumstances of the clearest public utility shall appear to render a speedier formation of any such road manifestly desirable.

SUMMER ASSIZES, 1806.

Ordered,

That Edward E. Chambers be directed, &c. as in former Book.

That in all Baronies where Conservators have been appointed, a month's notice previous to each Assizes shall be given to said Conservators by all persons applying for Presentments to repair roads, of the exact points between which the intended repairs are stated to be wanting, to give sufficient time for said Conservators to examine and measure the same, so as to enable them to give useful information to the Grand Jury.

That in future all Gullets and single Arches shall be carried entirely across the road into the adjoining field, so that the banks of the ditches may be continued over them, and that the battlements of bridges and other walls, where necessary, be finished with chisel-edged coping.

That cars employed in the repair of roads, in order that they may contain six hundred weight of gravel, should be of the following dimensions:

	Feet.	Inches.
The front board - - - - - -	3	6
The back board - - - - - -	4	0
Breadth of the boards - - - - -	0	8
Distance between front and back boards - -	2	0

That the Conservators of roads should send in their Reports, at each Assizes, to the Grand Jury, immediately on their proceeding to business; and that it would be desirable that all persons having any complaint to make or information to give, respecting any public work, communicate such to the Grand Jury at as early a period of the Assizes as possible, in order that due examination may be made previous to passing the accounts.

Maurice Fitzgerald, eſq. Clerk of the Crown.
Patrick M'Keogh, eſq. Clerk of the Peace.

Ordered, That all Preſentments which have been granted two years previous to laſt aſſizes, and work not doing, an account thereof ſhall be laid before the Court, and application made to ſtrike the ſame out of the Quære Book; and the money in the Treaſurer's hands, for payment thereof, will be preſented for other purpoſes in the reſpective Baronies and Half Baronies, and County at large.

The Treaſurer requeſts that Gentlemen who are Collectors of the Grand Jury Ceſs will give directions to their Deputies to proceed on their duty forthwith, as there is reaſon to think the Summer Aſſizes will be an early one, and by doing which, they will have time to convert a great portion of the ſilver and other payments made to them into ſuch Bank paper as will be pleaſing to all perſons entitled to receive for Preſentments.—The Treaſurer will attend at his office ten days before the aſſizes, to receive the Public Money by degrees; and it is hoped the Gentlemen Collectors will aſſiſt the Treaſurer's diſpoſition to diſpatch the Overſeers out of town, by paying him large portions of the Public Money before the aſſizes.

The County will have credit in next Aſſizes' Levy for the Balance, if any, of fines and forfeited recognizances, after Preſentments are made to the late Collectors for lodging the bodies of ſeveral debtors in gaol purſuant to Act of Parliament.

County of Roſcommon, to wit. } AT a General Aſſizes and General Gaol Delivery held at Roſcommon, in and for ſaid County, on Saturday the 14th day of March 1807, the following Preſentments were made by the Grand Jury, and fiated by the Court.

NOTICE.

The Treasurer gives this timely notice to the different high-constables, that unless they pay the full amount of their respective warrants according to law, which is on or before the second day of each Assizes, he will not give them their receipts, and their salaries shall be stopped.

Resolved, That from the scarcity of gold, the collectors are impowered to receive the public money in their respective Baronies in notes of the bank of Ireland. He begs any person having demands for public money, may call at his office in Omagh, as he cannot pay at any other place.—No orders will be received unless signed by one of the overseers.

The Secretary of the Grand Jury requests that the different overseers may send in their affidavits to the office in Mr. Francis Mehan, Omagh, at least ten days before the Assizes, in order that sufficient time may be had to enter them in the Schedules.

The following number of public orders for each Barony, viz.

Dungannon, 90. Strabane, 45. Omagh, 45. Clogher, 30.

Ordered, That the materials of the old court-houſe be peremptorily ſold by auction to the higheſt bidder, in fourteen days from the date hereof, and that the money ariſing from the ſale thereof ſhall be depoſited in the hands of the treaſurer of the county, for the uſe of the county; and that the materials ſhall be removed within three months from the ſale thereof by the purchaſer, under the penalty of forfeiting the price agreed upon to be paid for ſaid materials.

Ordered, That the ground on which the old court-houſe now ſtands be thrown open for the advantage of the public, and to continue open.

Reſolved, It is the opinion of the Grand Jury, that all ſums remaining in the treaſurer's hands, unaccounted to, and for, Summer Aſſizes 1805, incluſive, ought to be re-preſented, if not accounted for, at the next Spring Aſſizes.
